TECHNICAL SKILLS

Statistical Tools & Languages – SQL | Python | R | C++ | Java | Git | GitHub | Docker | Linux | Pivot Tables | Matplotlib | Dplyr
Libraries & Platforms – Pandas | NumPy | Scikit-Learn | Jupyter | Google Colab | Alteryx Cloud | Tableau | StatsModels | Excel
Data – Hypothesis Testing | EDA | Regression | Clustering | Machine Learning | Social Network Analysis | Classification Models

PROFESSIONAL EXPERIENCE

Reservations Agent | *Anaheim Majestic Garden Hotel – Anaheim, CA* August 2026 – Present

- Handle 100+ daily reservations, supporting over 200 guest booking records and 50+ rooms in Oracle's Opera Cloud.
- Manage over 15 inquiries and reconcile bookings across 3+ OTAs, resolving payment and reservation discrepancies.
- Troubleshoot more than 4 deposits and analyze 2+ reports tracking arrivals, revenue, and hotel profitability trends.

Web/UX Redesign & Development Lead | *UTO Taekwondo – Cypress, CA* May 2026 – Present

- Conduct UX research, behavioral analysis, and usability tests to enhance the digital experience of over 200 customers.
- Collaborate with leadership to gather requirements, analyze workflows, and translate 9+ features into business needs.
- Arrange 70+ digital assets and collect qualitative data to build a scalable 10+ page platform with Next.js/Tailwind CSS.

Research Assistant – Social Network Analysis (MR-QAP) | *Chapman University* March 2026 – Present

- Evaluate collaboration network models for 240+ first-year STEM students in 11 classrooms via Python and MRQAP.
- Enhance datasets in cleaning and transformation methods, improving analytical precision and validation by 20%.
- Apply 4+ statistical methods including MR-QAP, ANOVA, and density to assess team stability and quality interactions.
- Develop more than 7 network visualizations and graphs in R, explaining 64.4% variation in team formation outcomes.

Volunteer -> Senior Leadership Instructor | *UTO Taekwondo* March 2018 – Present

- Began as a volunteer and transitioned into a paid role, providing office support and handling customer inquiries.
- Supervise 15+ youth per shift in self-defense, manage entry-level team members, and oversee studio operations.

Academic Tutor (Student Tutor) | *Chapman University* September 2024 – May 2026

- Tutored 5+ students quarterly for 10 STEM and business topics in statistics, data analysis, and quantitative modeling.
- Expanded on techniques in regression, hypothesis testing, and data interpretation to improve problem-solving skills.
- Utilized over 13 statistical procedures in Python (NumPy, Pandas), R, and Excel, analyzing student feedback metrics.

Data Entry/Admin Assistant – Office of Accreditation & Assessment | *Chapman University* June 2025 – August 2025

- Maintained accuracy in graduate databases with 50+ students, validating survey metrics in accreditation assessments.
- Conducted research and enrollment trend analysis on more than 70 alumni to support counseling program outcomes.
- Leveraged visualizations using Excel and Qualtrics to improve stakeholder understanding of internships by 25%.

RELEVANT PROJECTS & EXPERIENCE

Spotify Tune Success Analytics Dashboard – *Business Intelligence & Data Visualization* April 2026 – May 2026

- Conducted analysis on over 130,000 Spotify songs with 17 audio metrics to identify key factors in streaming success.
- Built 10+ interactive Tableau visuals, enabling users to gain insights for 5+ correlations in audio song performances.
- Applied methods in hypothesis tests to reveal over 6 significant song popularity variables (energy, danceability, etc.).

Large-Scale Customer Segmentation Analysis – *Big Business Predictive Modeling* November 2025 – December 2025

- Collaborated with 2 others to integrate Jupyter/Colab machine learning with over 9 million online booking records.
- Implemented feature engineering and data transformation to apply clustering analysis for 6 customer segmentations.
- Trained 5+ regression and classification models, designing Matplotlib visuals to present to a non-technical audience.

EDUCATION

Chapman University, Orange, CA May 2026
Bachelor of Science in Data Science, Summa Cum Laude *Program Honors Graduate*
Minor in Business Administration 3.92 GPA

ACADEMIC AWARDS AND LEADERSHIP

Fowler School of Engineering Outstanding Senior Award – Data Science 2026
Outstanding Tutor Certificate of Appreciation 2026
Presidential Scholarship Recipient 2022–2026
Provost's List 2022–2026
